

## Integrate your retail POS sales with Tessitura

Improve efficiency with a Tessitura-integrated point-of-sale solution. Look up patrons in Shopify to apply member discounts, accept Tessitura-issued gift certificates as payment, and store all purchase history in Tessitura.

Retail solution integrated  
with Tessitura

Track retail and food & beverages  
purchases in Tessitura

Know how your patrons interact  
with your shop and/or café

Automatically apply discounts and  
other benefits for your members

Easily sell retail items or food and beverage with this innovative solution. The Shopify application for iPad connects to a secure cloud-based infrastructure for centralized management, reporting, and marketing. The integration allows you to look up customer records, apply member discounts, validate and redeem Tessitura-issued gift certificates, and house all POS purchase history in your Tessitura database.
