Comments:

- Brian Parker
Mindee: During the height of COVID, WordFly was making Pages available for free, and now not so much. Organization didn't ask for any entries in the LP_WF_PAGE_RESPONSE_CUSTOM customizations, and now there's a lack of data that has supposedly been collected through Pages. Procedure that is supposed to have sample code does not have anything to reference. There is a desire to make this code as friendly as possible from the consortium perspective instead of needing to constantly return and cobble together bits and pieces of code per organization at sporadic intervals.
- Brian Parker
Mindee: The organization making use of pages is trying to use it for both RSVP purposes and for survey purposes, with the ability to incentivize responses.

- Brian Parker
Brian and Janet had questions but no answers or insights.
